

Set a New Pace

Health Plans solve critical business issues by leveraging Fidelis' domain expertise

The Fidelis Suite of Products

Point of Sale Portal - Leverage your underwriting process in the field and speed time to market.

Customer Acquisition Suite - Attract new customers, increase close ratios.

Renewal Automation Suite - Automate the entire renewal process and slash turn-around times.

Business Analytics Suite - Gain Insight, build metrics, and gain a competitive edge.

Rating & Risk Management Engine - Price proposals more competitively and mitigate risk.

No one understands the health insurance industry like Fidelis Health. Our software products have targeted the core business needs of Health Plans for more than a decade, and because of this, we build products for this industry like no other company can.

Our aim is to provide real value through cost-effective and targeted products that help you gain a competitive edge and build marketshare. Accelerating our value to accelerate your business. Set a new pace.
